

Global Learning Adventures

SUMMER 2026

Let your kids join students from China, Singapore, Indonesia, Malaysia, Thailand, Vietnam and Pakistan for a fun-filled 4-week online learning adventure.

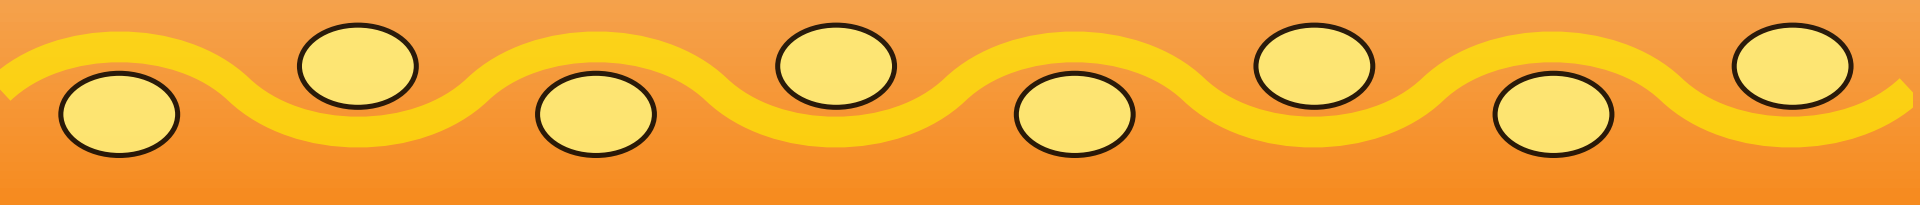

Global Learning Adventures

THE VISION

The traditional classroom is bounded by walls and limited by single perspectives. But the **challenges of tomorrow** - from climate resilience to the ethical integration of Artificial Intelligence - do not respect national borders. They **require global solutions built by connected minds**.

The **Global Learning Adventures** was born out of a simple, powerful vision: to **transform passive screen time into an active, cross-border incubator for young leaders**.

Global Learning Adventures

THE MISSION

Trinational Synergies: Your child will co-author projects alongside high-achieving peers from Singapore, China, Malaysia, Thailand, Indonesia, Vietnam and Pakistan, building an authentic global network before they even finish school.

Future-Proof Literacy: We treat advanced tools like AI prompt engineering and digital storytelling not as novelties, but as essential languages of leadership.

The Portfolio Advantage: Every project tackles real-world regional case studies, shifting the summer focus from spending aimless days to building university-prep, portfolio-grade credentials.

*We are not teaching children to survive the future;
we are mentoring them to design it.*

Global Learning Adventures

THE PEDIGREE

GLA is built upon a 15-year foundation of curriculum and textbook development of our parent company.

We also offer various Online educational services through our platform **Connector.pk** which are used by leading schools and teachers in Pakistan as well as in China, Malaysia, Singapore, Thailand, Vietnam and UAE and many other countries.

Global Learning Adventures

OUR AMBIT

GLA is designed exclusively for the students of Grade 4 to A-Level (or equivalent) of:

CAIE

Cambridge Assessment
International Education

IGCSE

Edexcel

IB

*We are not teaching children to survive the future;
we are mentoring them to design it.*

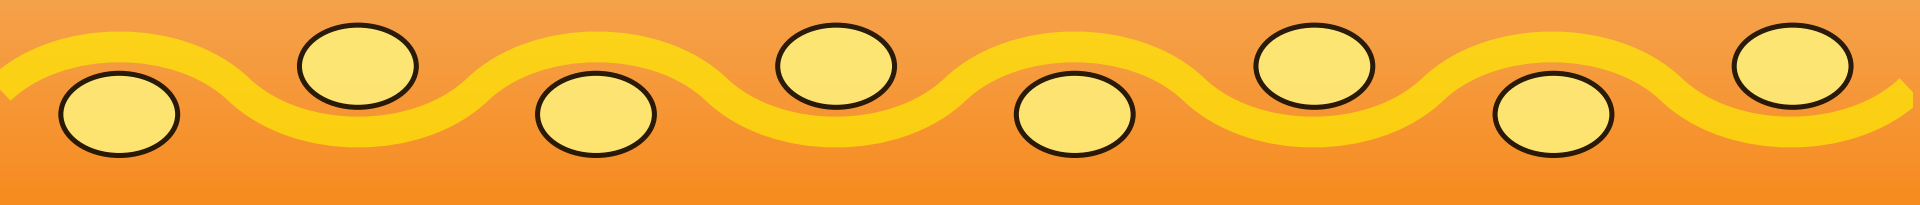

Global Learning Adventures

Salient Feature

MULTI-NATIONAL COHORTS

GLA pairs 3, 4 or 6 high-achieving students from two or three different countries into a single project team. This **creates a powerful peer-to-peer learning ecosystem**. Students assimilate deep cultural nuances, adapt to diverse communication styles, and benchmark their own academic skills against international learning standards.

Global Learning Adventures

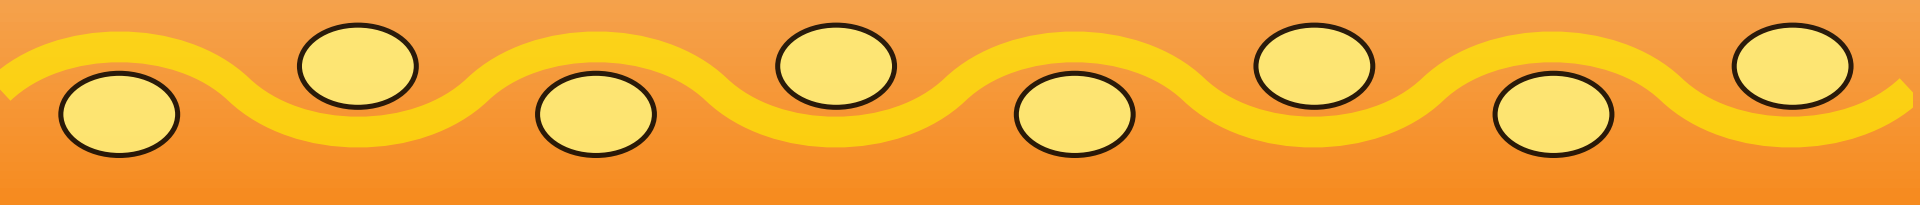

Salient Feature

COLLABORATIVE STUDIES

By navigating real-world problems alongside peers from different countries, **your child** transitions from a local student to a multi-national collaborator - **developing emotional intelligence, agility, and global perspective** required by the world's leading universities and corporate institutions.

We are not teaching children to survive the future; we are mentoring them to design it.

Global Learning Adventures

Salient Feature

PROJECT-BASED LEARNING

Each team is assigned a STEM or Business project, which they have to complete in four weeks. **Your child will** organically collaborate across time zones to **produce a definitive, portfolio-grade project.**

*We are not teaching children to survive the future;
we are mentoring them to design it.*

Global Learning Adventures

Salient Feature

PROFESSIONAL ASSESSMENT

The completed project is viewed by Industry and Academia experts and assigned grades. Students get verified **Certificate of Accomplishment** for their university admission.

*We are not teaching children to survive the future;
we are mentoring them to design it.*

Global Learning Adventures

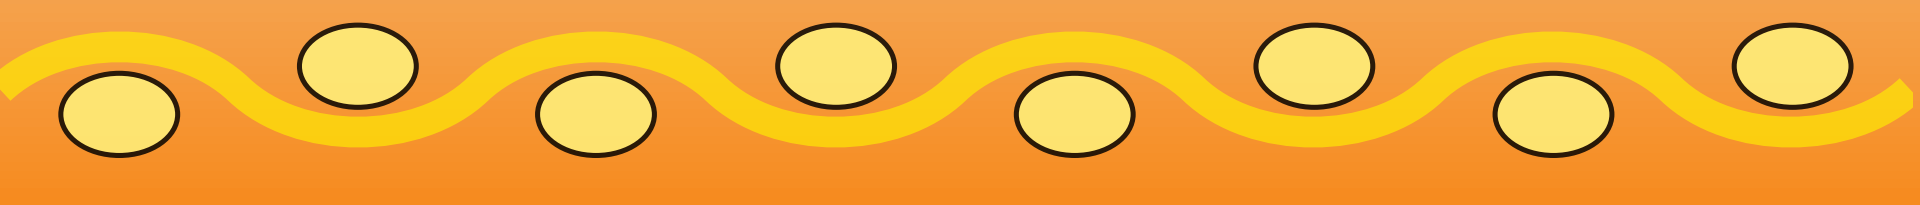

Salient Feature

CROSS-CULTURAL NETWORKING

Connects your child with peer families from Asia's leading economic hubs, thus helping them to **create a global network in their youth**. This networking will be of great help in their future endeavours.

We are not teaching children to survive the future; we are mentoring them to design it.

Global Learning Adventures

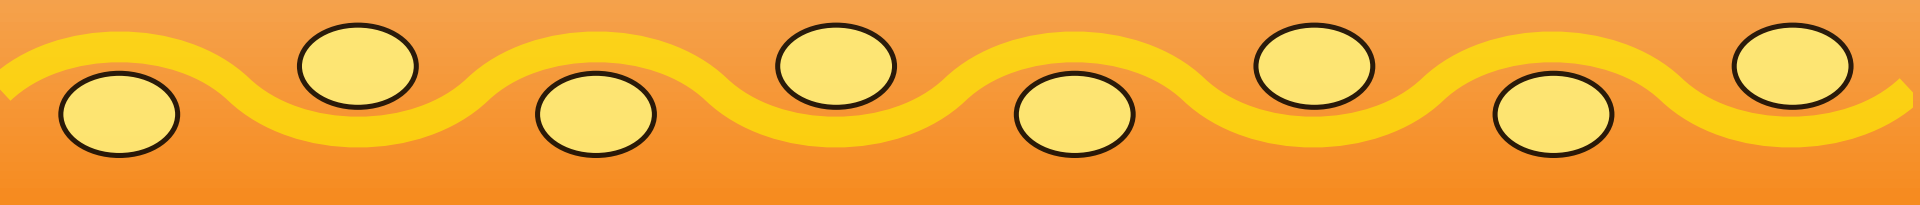

Salient Feature

INTERNATIONAL FACULTY

Students are mentored by a distinguished faculty, mostly drawn from global academia, **ensuring university-level rigour and structured inquiry.**

*We are not teaching children to survive the future;
we are mentoring them to design it.*

Global Learning Adventures

FUTURE SKILLS

GLA helps cultivate 21st Century skills in your child:

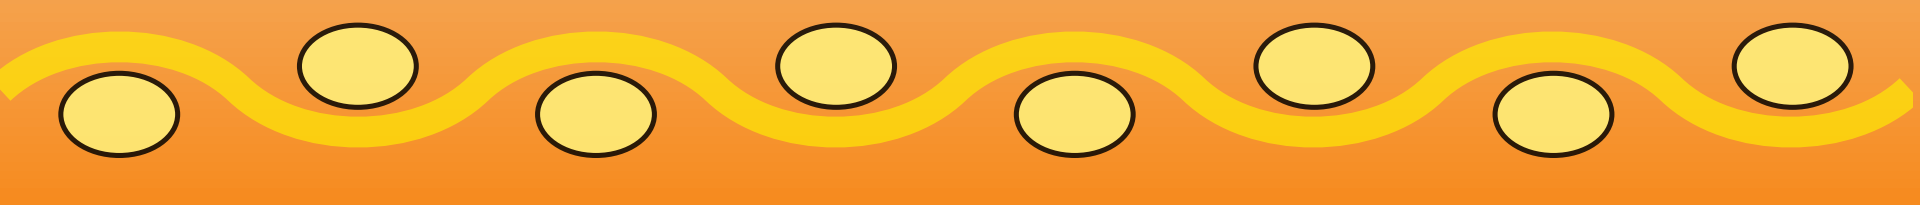

d CRITICAL THINKING

d ACADEMIC MASTERY

d CULTURAL FLUENCY

*We are not teaching children to survive the future;
we are mentoring them to design it.*

Global Learning Adventures

ADDITIONAL FREE BENEFITS

For A-Level Students

1. Personalized University Recommendations

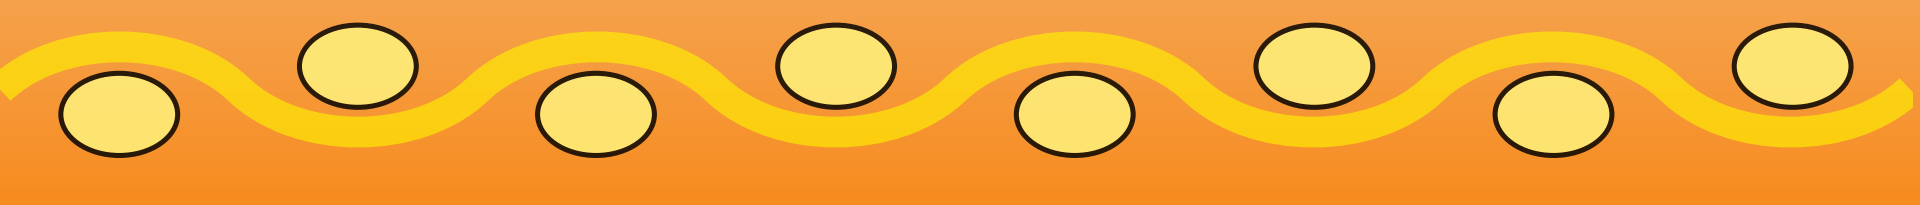

We will conduct a thorough analysis of your child's academic transcripts, extracurricular portfolio, and personal aspirations to generate a list of **five optimal university placements:**

Two Aspirational Choices: We will suggest two aspirational institutions positioned at the peak of your child's profile.

Two Target Choices: We will recommend two highly competitive universities perfectly aligned with your child's current trajectory.

One Safety Anchor: We will suggest a fallback option. A secure, high-caliber institution in case the above four options don't materialize.

Instead of generic data dumps, you will receive

Global Learning Adventures

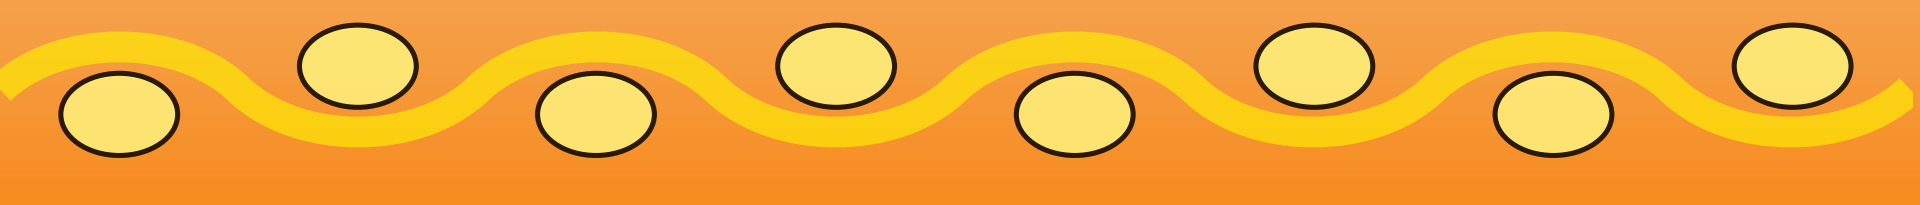

a clean, actionable roadmap outlining your child's ideal academic pathway.

2. Strategic Profile Optimization

We will audit your child's current profile, pinpointing gaps in leadership, research, or project-based milestones. **You will receive precise, targeted recommendations** on how to elevate your child's portfolio to precisely match - and exceed - the expectations of top-tier admissions committees.

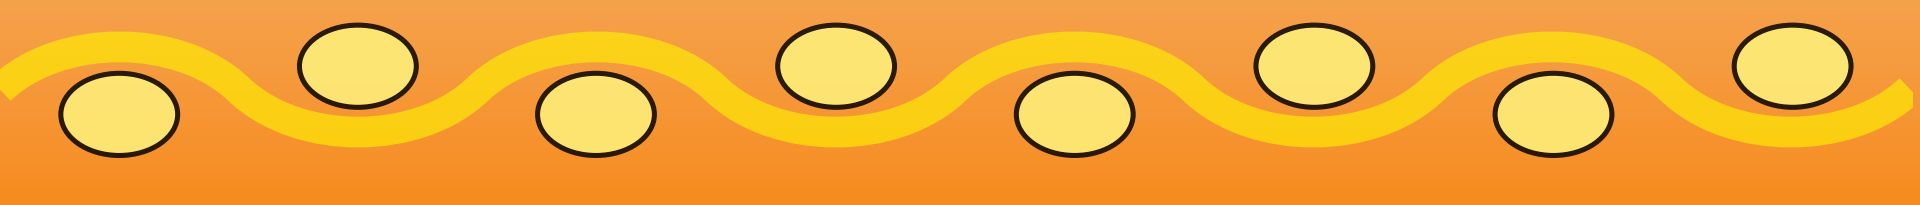

*We are not teaching children to survive the future;
we are mentoring them to design it.*

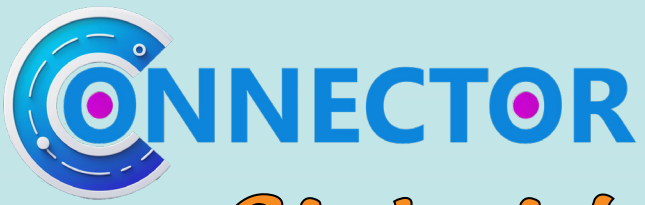

FEE STRUCTURE

Grades 4-5	SGD 500/-
Grades 6-8	SGD 600/-
O-Levels	SGD 720/-
A-Levels	SGD 840/-

Please Note: Students of Grade 4 and Grade 5 will be paired with Singapore children because at the tender age of 9 or 10 years old, they are not sufficiently capable to take advantage of cross-cultural connections and handle work across time-zones. However, one or two sessions could be arranged with foreign children after assessing local children's readiness.
